

QUIXANT MONITORS

How your game is presented on a display is as important as the game content itself. Quixant has developed an optimised range of gaming monitors and button deck solutions designed to meet the specific requirements of the gaming market.

The continuously evolving Quixant display portfolio with enhanced functionality, such as API-driven LED illumination and colour calibration, seamlessly integrates with our PC-based platform technology. Combined with the unique differentiators offered by the Quixant Gaming Ecosystem®, this provides the customer with an unrivalled one-stop gaming solution.

- VIBRANT COLOUR PERFORMANCE
- LED PATTERN CONTROL AND CUSTOMISATION
- VERSATILE DIMENSIONAL OPTIONS
- LOW HEAT GENERATION WHICH REDUCES CARBON ENERGY CONSUMPTION
- COMPLIANCE OPTIONS: CE/UL/FCC
- ADVANCED IN-HOUSE R&D CAPABILITIES
