

QUIXANT

The global leader in  
Gaming technology.  
*Unleash your creativity.*

# Introduction

Quixant is the global leader in Gaming and Sports Betting technology. We build technology with endless possibilities, so you can create incredible games and deliver extraordinary gaming experiences.

Just like you, we want more players playing your games. By working together, we can immerse players into new worlds and make every play exceptional and last longer. Quixant focusses on the hardware and software leaving you to focus on enhancing the player experience, and creating the best games on the planet.

Our market leading gaming hardware platforms are all powered by Quixant's Software Hub, a host of effective software solutions designed to optimize game development and delivery. Our highly configurable, turnkey cabinets are all powered by our gaming hardware platforms and come with a comprehensive suite of peripherals. Developed with a deep, in-house understanding of the requirements and regulations of the Gaming universe, we provide global gaming OEMs with powerful and reliable solutions so they can exclusively focus on creating the best games on the planet.

With you every  
step of the way.  
Every pixel,  
Every play.

## Why Quixant?

Our exclusive focus on the Gaming and Sports Betting industries, and deep understanding of the markets' requirements and regulations guide our Gaming specific product development.

The world's best Gaming technology

Global regulatory compliance guaranteed

Support and guidance from our Gaming technology specialists

Commercial and supply chain solutions tailored to you

Launch **world-class** leading products in record time

## About Quixant

1

Founded in 2005.

2

Publicly listed company since 2013.

3

An extensive customer base across all global gaming markets.

4

Global warehouse and supply chain solutions.

5

Software development and support hub in Italy.

6

In house expert manufacturing hubs in Taiwan and USA.

7

Intel and AMD solutions across standard products.

---

*“Our technology tears down boundaries so you can unleash your creativity. Our hardware and software delivers stability so your games can rock the industry. Our partnership empowers performance so you can crack every opportunity”.*

*Jon Jayal CEO, Quixant PLC*

# Partnerships

A host of flexible commercial solutions to suit your business that give you further control of your costs and reduce lead times.

### Traditional sale

Allows you to purchase market leading gaming hardware platforms outright, with flexible payment terms and the comfort of extended warranties.

### Lease and instalment plans

Enabling you to spread the investment out over three, four or five years, and own the technology outright at the end of the term, or upgrade to the next generation solution. You can plan around a monthly investment amount, continually renew your technology, and preserve your cash reserves.

### Vendor managed inventory

Reduces your lead time from four months to four minutes. Whilst it's available in your business and ready to pull when you need it, we hold the cost of your technology until you withdraw it for use, and only at this point do you pay.

### Technology expertise

Free global customer support from the teams who conceptualise and develop Quixant's solutions.

### Global services

Dedicated technical teams across the globe based in US, Asia, Europe and Australia to support game integration efforts.

### The Quixant Hub

Our secure customer portal provides additional support with downloadable software, documentation, example code and whitepapers.

---

*"The last few years were a challenging and uncertain time for Everi and the entire gaming community, as our end markets were severely impacted by pandemic-related restrictions. As a result, we had to carefully manage our cash flow, and Quixant was very responsive to the situation. Together, we were able to collaboratively work to manage the challenges, enabling us to maintain an eye to the horizon and the growth prospects beyond."*

**Dean Ehrlich,**  
EVP & Games Business Leader, Everi

---

*"Quixant has been a partner of Ainsworth for many years, but the last few years showed the true meaning, and value, of our partnership. At a time when our customers' venues were closed and everyone was working to manage cash flow through the pandemic, Quixant presented us with a payment solution which allowed us to concentrate on running our business, and to focus on growth post-pandemic, benefiting both organizations through 2021 and beyond. While undoubtedly a challenging year, 2020 further strengthened our relationship with Quixant, as their forward thinking and innovative attitude demonstrated the true value of effective partnership."*

**Ryan Comstock,**  
COO, Ainsworth Game Technology

Here to support you  
throughout your **game**  
development journey.

# Game changing hardware

There are no limits to what you can develop with Quixant. Our range of gaming hardware platforms, Software Hub solutions, turnkey cabinets and accessories have been expertly designed to meet the needs of the Gaming and Sports Betting industries.

Outsource your gaming technology hardware development to Quixant for more cost-effective game development, which enables you to launch your market-leading games in record time.

With Quixant's game changing technology, no game is too powerful or too complex. You no longer need to worry about hardware performance or global regulatory compliance and game security – we have it covered. We are here to optimize every game development and delivery opportunity with you, so you can spend more time making your exceptional games a reality.

Outsource to the  
Gaming technology  
experts and get  
ahead of the game.

# High performance hardware with software on board

The ultimate range of gaming hardware  
platforms, with both **intel** and **AMD** options.  
Made for every market. Built for every budget.

*"No more components that can't keep up. No more waiting for technology to catch up. Our boards enable the game design process to be 'to the max' so there is no limit on the creativity and demands of the game designer and their process. If you think it's good now, imagine what it could be."*

Duncan Faithfull, CCO, Quixant

# Ultimate performance. Ultimate power.

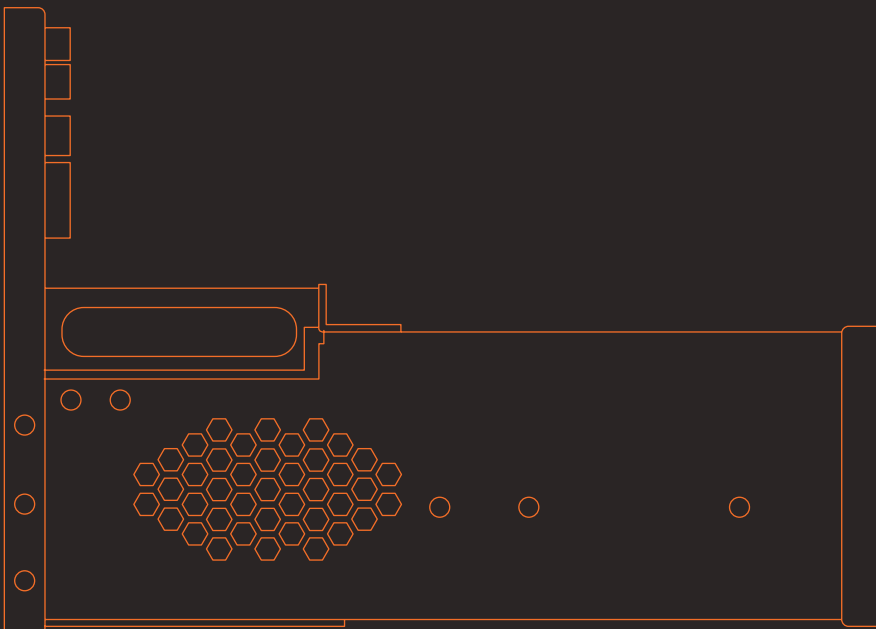

The most powerful and feature rich gaming hardware platforms on the market. Take your games as far as your imagination can go, without compromise on quality or performance. A highly customizable tray and backplane platform with a DGPU option, allowing you to increase your hardware's performance by adding the graphics card of your choice. Integrated fan

# Big on performance. Big on value.

Suited to game developers looking to satisfy a range of standard performance requirements, this efficient, cost-effective platform delivers excellent performance and value.

## Displays

Drives up to two independent HD displays or one 4K display

## I/O

Supports 16 x digital inputs and 16 x digital outputs

## Graphics

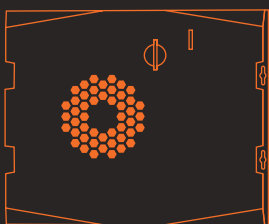

Integrated AMD Radeon™ Vega 3 graphics

## Processing Unit

AMD Ryzen™ Embedded R1102G

## Thermal Control

Fanless solution

A cost-effective solution to meet a range standard performance requirements, the IQ Air is the only product on the market to offer the level of power and functionality at its accessible price point.

## Displays

Drives up to four 4K Ultra HD displays

## I/O

Supports 16 x digital inputs and 16 x digital outputs

## Graphics

Integrated AMD Radeon™ Vega Graphics

## Processing Unit

AMD Ryzen™ Embedded R1000 or V1000

## Thermal Control

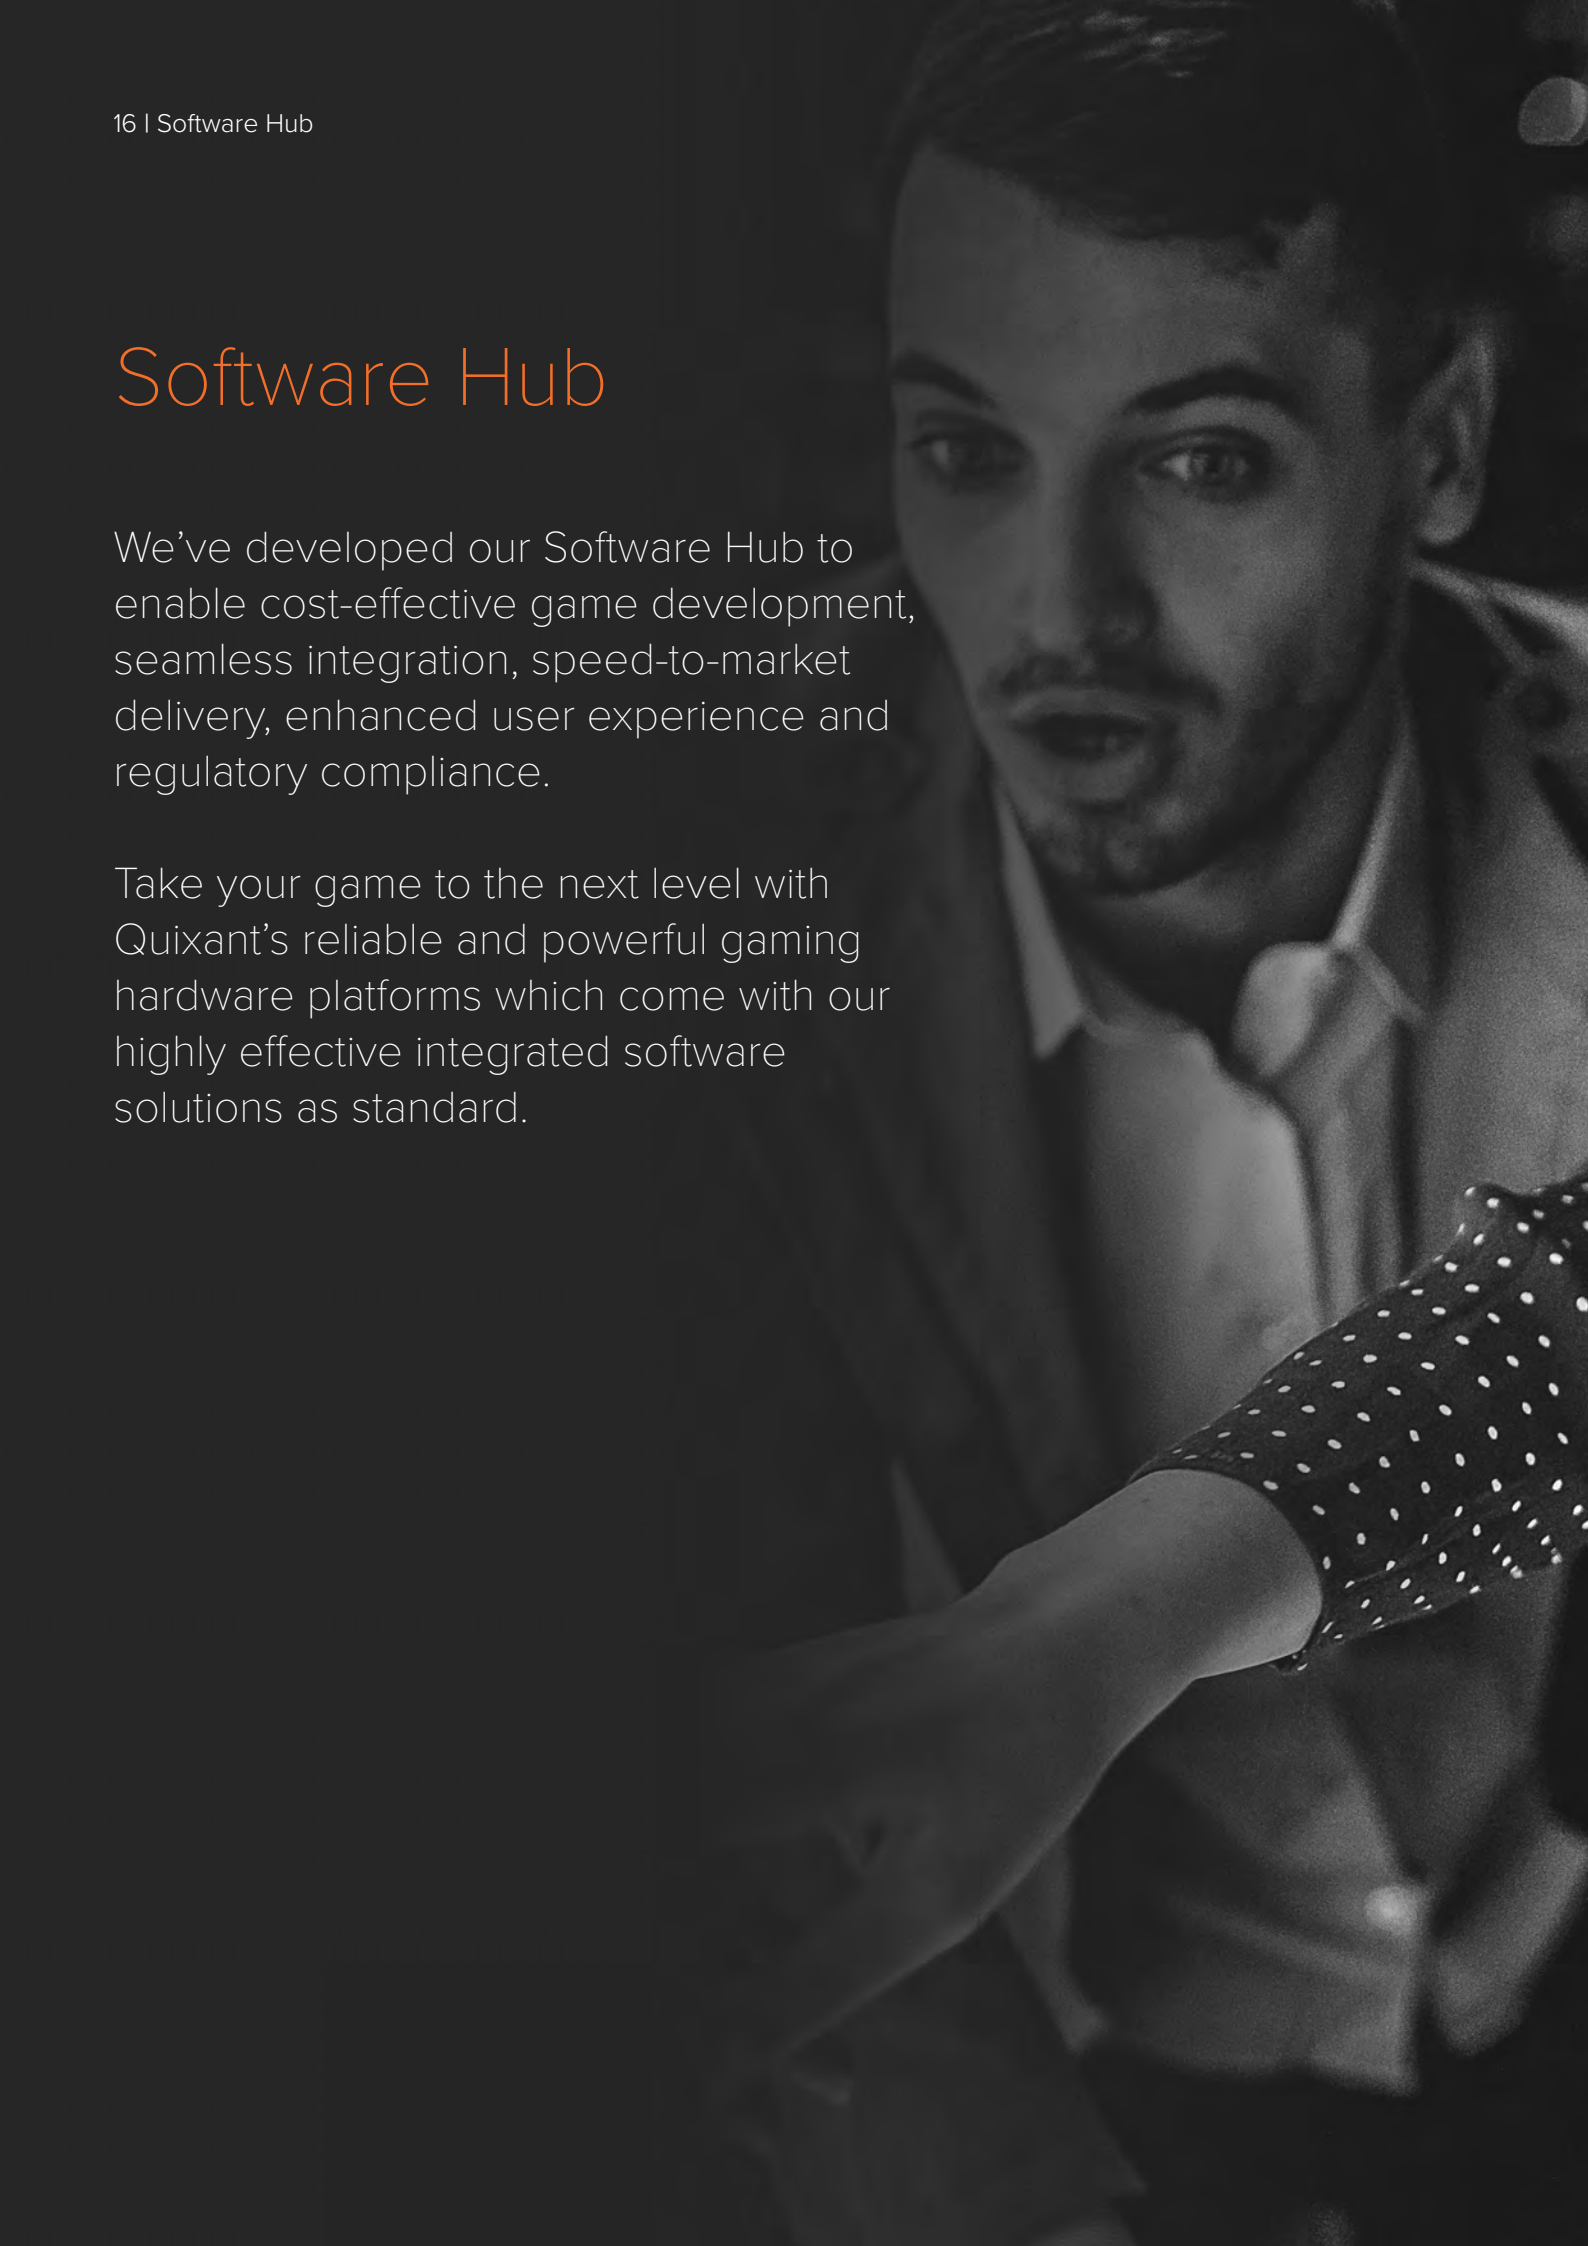

Integrated fan

## Software Hub

We've developed our Software Hub to enable cost-effective game development, seamless integration, speed-to-market delivery, enhanced user experience and regulatory compliance.

Take your game to the next level with Quixant's reliable and powerful gaming hardware platforms which come with our highly effective integrated software solutions as standard.

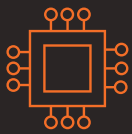

Creativity **without**  
compromise

# Unleash your creativity and develop with confidence on Quixant's market leading gaming hardware platforms.

## Development solutions

Expertly designed, highly configurable, and easy-to-use solutions that will optimise your game development and delivery processes.

## Debug

### Quixant's Debugging Solution

A superior debugging solution which enables you to efficiently trace, isolate and address bugs both in a test and live gaming environment without impacting the performance of your game.

## Play

### Quixant's Video Content Solution

The solution enables you to reduce the impact of pre-rendered video decoding, play more video content simultaneously, deliver the highest resolution content, and enable smoother game play.

## Multimedia solutions

Powerful and easy-to-use solutions that enable you to develop and deliver unrivalled immersive game experiences with the ultimate audio, visual and lighting.

## Illuminate

### Quixant's Cabinet LED solution

A powerful solution dedicated to game artists that enables you to bring your content to life with customised cabinet lighting sequences.

### Protocol solutions

Reliable, out-of-the-box, yet highly customisable security solutions that ensure compliance with G2S and SAS protocols.

### G2S

#### Quixant's G2S Solution

Quixant's widely adopted G2S solution provides a secure and compliant medium to connect with this increasingly adopted casino accounting communication protocol.

### SAS

#### Quixant's SAS Solution

Quixant's extensively used SAS solution has been developed to give game developers a reliable, out-of-the-box, yet customisable solution that ensures compliance with GSA SAS 6.02 protocol.

### Security solutions

A host of powerful, highly customisable and compliant security solutions expertly designed to protect gaming systems and intellectual property.

### Authenticate

#### Quixant's Authenticity Solution

Protect all elements of your hardware and software with Quixant's secure and powerful authentication solution.

### Boot

#### Quixant's Secure BIOS Solution

Developed by a specialist team with 10+ years of experience of creating, testing and implementing a secure and compliant BIOS solution, this out-of-the-box solution enables you to validate your games up to 50% faster.

### Protect

#### Quixant's Suite of Security Solutions

A host of powerful, compliant security features that are easy to implement and highly customizable to the requirements of the markets you operate in.
